

CABLE REEL 25 METERS - 230 V

Cable reel made of special plastic with rubber-like properties for the best use. With up to three protective contact sockets with hinged spring cover IP44. Drum body with ventilation channels for a cool drum core. Newly developed drain brake and extra stable double tube frame Ø22 mm with patented cable routing for perfect unwinding and winding.
No slippage and confusion of the cable between reel and frame.
Optimized winding space.
Capacity 25 m H07RN-F 3G2,5 cable.
Extra deep construction, therefore especially safe stand.
Easy winding with three handles, one of which has a twist handle.

Dimensions
Width: 300 mm
Height: 270 mm
Diameter: 245 mm
Weight: 7,1 kg.
